EXPERIENCE

Exante Data: Director of FlowPro (London, UK) Sep 2023 - Present

Rebranded and rebuilt the Trounceflow product as "FlowPro". Expanded the asset class coverage to include developed markets macro and beyond. Built new user interface, improved back-end efficiency. Won and retained new clients. Most recently, made extensive use of AI to improve product and efficiency.

Trounceflow: Founder and CEO (London, UK) Sep 2016 - Sep 2023

Founded and led a data analytics firm specialising in emerging and frontier market capital flows, positioning, and investor behaviour. Built proprietary data pipelines and quantitative models to track cross-border portfolio flows and foreign investor positioning. Delivered research and analytics to institutional clients including asset managers, hedge funds, and central banks. Grew the business from inception to acquisition by Exante Data.

Standard Chartered: Head of Strategy, West (London, UK) Nov 2012 - Sep 2016

Led the CEEMEA and Latin America rates and FX strategy team, providing macro research and trade recommendations to institutional investors. Authored flagship publications on EM local markets, sovereign credit, and capital flows. Managed a team of strategists covering fixed income, currencies, and derivatives across emerging markets. Worked closely with sales and trading to support client engagement and revenue generation.

JPMorgan: Head of CEEMEA Strategy (London, UK) Sep 2007 - Oct 2012

Headed the Central and Eastern Europe, Middle East, and Africa fixed income and FX strategy team. Produced research on local rates, sovereign credit, and currencies for institutional investors globally. Developed quantitative frameworks for relative value analysis and flow-based trading signals. Played a key role in expanding JPMorgan's EM research franchise across the CEEMEA region.

Nomura: G10 Rates Strategist (London, UK) Oct 2006 - Aug 2007

Provided research and trade ideas on G10 government bond markets, interest rate swaps, and derivatives. Covered major developed market yield curves and central bank policy dynamics.

Markit: Credit Default Swap Pricing Analyst (London, UK) Apr 2006 - Sep 2006

Priced and verified credit default swap valuations across investment grade and high yield corporates. Contributed to Markit's CDS pricing service used as an industry benchmark.

Societe Generale: G10 Rates Strategist (London, UK) Sep 2000 - Aug 2003

Produced research and trade recommendations on European and US government bond markets, interest rate swaps, and inflation-linked securities. Covered ECB and Fed monetary policy and their implications for fixed income markets.

BNP Paribas: G10 Rates Strategist (London, UK) Aug 1998 - Aug 2000

Provided fixed income strategy research covering European government bonds and interest rate derivatives during the introduction of the euro. Analysed convergence trades and sovereign spread dynamics across the euro area.
